

Measurement

Task: Students will be given a variety of objects and be asked to perform various measurement tasks such as the following:

- Place objects in order of their size, length, width, or capacity
- Estimate the length, width, or volume of an object using nonstandard units
- Measure using nonstandard units

Criteria	Needs Improvement -	Adequate +	Adequate +
Reasonable estimates made	Rarely / Never	Sometimes	Usually / Always
Compares objects according to size accurately	Rarely / Never	Sometimes	Usually / Always
Accurately measures length	Rarely / Never	Sometimes	Usually / Always
Accurately measures width	Rarely / Never	Sometimes	Usually / Always
Accurately measures volume	Rarely / Never	Sometimes	Usually / Always
Demonstrates understanding of measurement terms	Rarely / Never	Sometimes	Usually / Always

Student Skills

The following rubric evaluates how your student performed while using the various student skills needed to complete the above task.

Criteria	Needs Improvement -	Adequate +	Excellent *
Listens attentively	Rarely / Never	Sometimes	Usually / Always
Follows directions	Rarely / Never	Sometimes	Usually / Always

Name: _____ Date: _____

Demonstrates effort	Rarely / Never	Sometimes	Usually / Always
--------------------------------	----------------	-----------	------------------
