

Homework Reflection- What am I telling myself?

STANDARDS

Process: Use time constructively

Process: Draw conclusions from given data

Process: Reflect on work done

TASK

Reflect on your practice problems using the reflection sheet. First, record the goal of the assignment. Then, check your problems for accuracy. Finally, sincerely reflect on your work by providing complete and specific responses to the remaining questions on the reflection page.

RUBRIC

Criteria	2	1	0
Recorded goal	-----	Clearly stated goal of assignment	Did not clearly state goal of assignment
Completed items on checklist	-----	Accurately checked off only the criteria completed	Did not accurately check off criteria completed
Completed scale with explanation	-----	Marked scale and gave a clear reason for the marking	Did not mark scale and did not give a clear reason for the marking
Completed statement of accomplishment	-----	Clearly stated something specific you were proud of	Did not clearly state what you were proud of
Completed statement of area in need of work	-----	Clearly stated a specific thing you are working on	Did not clearly state a specific thing you are working on
Completed statement of action	Clearly stated one specific and realistic thing you can do to get better	Stated one thing you can do but needs to be more clear, specific, and/or realistic	Did not clearly stated one specific and realistic thing you can do
Constructively used time	Self directed- had assignment out, corrected problems in a timely manner, and stayed focused on own reflection	Needed a reminder about having assignment out, correcting problems in a timely manner, and staying focused on own reflection	Needed more than one reminder about having assignment out, correcting problems in a timely manner, and staying focused on own reflection
