1st Grade Fiction Reading Unit

This project was created to assess first grade students in the area of reading at the conclusion of a fiction unit. I used the Common Core Standards and District 203’s reporting standards to identify the standards for this collection of authentic assessments. I rewrote some of the standards slightly to ensure they were clearly observable and measurable. After identifying the standards for this project, I created meaningful tasks to assess students multiple times and in a variety of ways to determine if they have mastered each standard. For each task, I have provided a description which includes directions for the teacher and the components that should be directly read aloud to students. Due to the young age of the students, many of the tasks are intended to be assessed through one-on-one oral conversations. For each task, I have determined criteria that align to the task and therefore the standard. These criteria are included in the rubrics that are attached to each task. The rubrics are to be used to assess student performance on each task and standard.
