Summative Assessment Task Description #2: Email response on Volunteerism

In this task, students will read an email and will use information taken from the email to write a response. This task addresses reading comprehension and writing skills.

This task addresses the following national standards:

*World-Readiness Standards for Language Learning*

- Interpersonal Communication: Learners interact and negotiate meaning in spoken, signed, or written conversations to share information, reactions, feelings, and opinions.
- Interpretive Communication: Learners understand, interpret, and analyze what is heard, read, or viewed on a variety of topics.

This task addresses the following additional process standards:

- Students will write appropriate responses to questions identified in a variety of email messages.
- Students will select an appropriate opening and closing for email messages and responses.

Rubric:

This task will be assessed using a rubric created and distributed by the College Board for the email response. For the purposes of this task, the criteria from the College Board’s holistic rubric have been reorganized into an analytic rubric so that students may see their own growth and progress in each of the criteria.

Scoring:

Students who earn a score of 3 on the email response can be considered “on track” for receiving a score of 3 on the overall Advanced Placement exam, which is our goal for all students in the Advanced Placement program. As a result, a total score of 21 will be the target score on this rubric. Scores higher than 24 will be considered to have exceeded expectations, while scores of less than 18 will be considered to have not met expectations.
