STANDARD #7: PRODUCE LANGUAGE USING PROPER PRONUNCIATION, INTONATION, AND INFLECTION

TASK #10

Tu propio PODCAST

It is the end of the semester and you are going to create your own PODCAST about your experience in our Introduction to Spanish class. It will be used so that future students can listen and have an idea about what to expect for the class. In pairs, you will question your partner as well as respond to your partner's questions. Please select at least four questions to ask your partner from the options below, two of which must be different interrogative words. Remember, you will be graded on your speaking ability so practice, practice, practice before creating your podcast. Each podcast will be played for the entire class.

Steps for success:
1) Choose a partner.
2) Choose 4 questions to ask your partner.
3) Create the questions in Spanish for your partner using the correct interrogative words.
4) Practice greeting each other and creating a smooth transition into the questions.
5) Practice your entire dialogue at least 3 times before recording yourself in the lab.
6) Record your interview and save to an mp3 player so that it can also be played in the classroom.

Questions to choose from (choose 4 each) (2 must be different interrogative words):
1. Who is your Spanish teacher?
2. What do you in class?
3. What is your Spanish teacher like? What are your classmates like?
4. Where is the classroom?
5. What types of items are in the classroom?
6. When does your Spanish class meet?
7. At what time does your class end?
8. Why do you study Spanish?
9. At what time does the class begin?
10. What are some studying techniques that you can use?
