Task

Medieval Fest, our culminating activity and day of medieval mastery, is just around the corner! As you and your kingdom make decisions about the development of your personas and what you will include from your research, think about what you can teach to your audience? How might you best engage them in the medieval world to which we were first introduced by Geoffrey Chaucer?

If you have not already done so,

1. prepare your costume and perhaps props for use on the day of Medieval Fest.
2. make contact with experts of the outside world for advice and resources, as you will be evaluated for the authenticity of your fest.
3. create survey questions for your audience to complete at the end of their visit to the fest to ensure you are considering their needs.
4. sign up for set up and clean up duties on the day of the fest.

You can bet there will be some evaluation of these duties following the Medieval Fest!
