

TASK 9: Reflection

Directions: Give a brief response to each of the following questions.

1) Look back at your prediction from task 1. Was your final design as good/bad as you thought it was?

2) Look at the responses that your peers gave you on task 8. Reflect on their judgments: do you agree with what they said? Were their comments different from your thoughts about your product?

3) If you could choose any group's cereal box design, whose would you choose? Use information like total cost to produce, shelf appeal, etc to justify your decision.
