

Two-Column Proofs

Content Standards:

*Students can construct convincing arguments and proofs to solve problems.

Task Description: Choose any topic that you wish to argue or convince your parents/guardians on (ex: why you think you should have a cell phone). You will be creating a proof in two-column format to argue your point. In the left column you will put your main reasons and in the right column you will put your supporting reasons.

1) Write down what you will be trying to prove or argue to your parents/guardians.

STATEMENTS	REASONS

GRADING RUBRIC

Criteria	0	1	2	3
Statements	0-2 good statements used	3-4 good statements used	5 good statements used	
Reasons	No reasons to support statements	Reasons are not numbered or not matched up or have little to no support	Reasons are number and matched up but have weak support	Reasons are numbered and matched up with statements and have good support
Argument	Did not create an argument	Poorly thought out argument	Gave good argument but is not including as a closing statement	Gave good argument and is including as a closing statement

Total Points: _____ / 8
