## Find out by Researching

In the early 1900s, Seminoles of southern Florida developed a method of arranging strips of fabric to create geometric designs. These patchwork patterns sometimes serve to advertise the clan to which the wearer belongs.

1. Research the patchwork techniques used by the Seminoles. Write a summary of the facts that you find out in doing your research.
2. Create your own Seminole patchwork design.

Due: \_\_\_\_\_

I will grade you on the following criteria:

- Organization of your research/summary
- Neatness of patchwork design
- Consistency of patchwork design with that of the Seminoles
