

It's time to play... "Let's make a Deal!"

The mayor is busily preparing for the city council meeting. One of the requirements he has for the "Friends of Fiefdom" and the "Fief Fighters" is to create a feudal contract between the citizens and the mayor. The contract must outline the responsibilities of the mayor and the citizens in order to maintain peace and structure in Naperville. The "Friends of Fiefdom" will describe these responsibilities in the context of Naperville as a fief. The "Fief Fighters" will discuss these responsibilities as if Naperville was to remain a city. Each group is to present their final contract at the city council meeting.

The "Friends of Fiefdom" and the "Fief Fighters" have both called emergency meetings to work on their respective contracts. The leaders have asked that each member create their own feudal contract to bring to the meeting. The contracts will be discussed and combined to form one final copy that will be presented to the mayor at the city council meeting. Remember: your goal is to maintain peace and structure in Naperville! Good luck!!
