

Exit Slip

Criteria: As students are leaving class (last 2-3 minutes), they will write a brief question/comment they have regarding the discussion that just took place over that class period. The question/comment should so insight into the subject being discussed, and it should show an interest in further growth and understanding of the subject matter.

Standards Addressed:

- Apply word analysis and vocabulary skills to comprehend selections (C)
- Compose well-organized and coherent writing for specific purposes and audiences (C)
- Communicate ideas in writing to accomplish a variety of purposes (C)
- Demonstrate the ability to ask insightful questions (P)
- Demonstrate the ability to ask effective questions that encourage thought and subject growth (P)
- Self-assess work in a variety of ways and make appropriate corrections when necessary (P)

Criterion	3 Points	2 Points	1 Point
Shows insight into class discussion	Exit slip shows ample proof student was actively engaged in the class activity	Exit slip is a decent question/comment, but doesn't really have much to do with the content of the lesson	Slip is irrelevant to the lesson/activity for the day; no proof that student was engaged and/or listening
Demonstrates ability to draw references and use outside examples	Slip shows that student is able to draw relevant examples from outside sources and tie them into the lesson; student proves they completely understood the underlying theme of lesson	Student attempts to connect an outside source/example to lesson, but it is a bit off topic and doesn't prove they have grasped the underlying theme of the lesson	Student attempts to use outside examples, but they are completely irrelevant to specific lesson
Coherent/Organized thought	Exit slip is written in an organized, coherent manner that is easy to read and understand	Thoughts on the slip are a bit difficult to understand; lack of organization	Student makes an incoherent list on their exit slip that makes it very hard to understand what direction they are heading

TOTAL POINTS = _____ / 9
