Formative: Personal SMART Goal

Standards:
10. Work cooperatively with others to achieve a common goal.

Task:
You will use the SMART goal template below to create a personal SMART goal. We will look at the SMART goal in two weeks to discuss your progress or success in meeting that goal. This can be something to do with school or something entirely different.

For example, your room may be very messy and you need to clean, but just haven’t made the time. Your personal SMART goal may be to clean your room. The point is to be very specific with your goal.

Criteria:
- SMART goal is relevant for student
- SMART goal is clear and can be easily followed
- All five parts of the SMART goal are addressed
