

## Research Project on Mathematicians

You are going to choose a mathematician to research. You must write a five paragraph essay on this person's involvement in mathematics. The essay must be typed and include the following specific paragraphs:

1. Introduction (3 - 4 sentences)
2. Biographical Information (8 - 12 sentences)
3. Approach to mathematics/specific subject area (8 - 12 sentences)
4. Contribution to mathematics (8 - 12 sentences)
5. Conclusion (3 - 4 sentences)

You will also need to provide a bibliography (list of resources), including the name of the book/magazine/etc., author, publisher, copyright data and page numbers on which the information you used was found. If you have trouble finding information, please see me right away.
