

Error Analysis

Standards:

– Students will be able to identify errors in their work and accurately revise their errors

Your assignment is to correct your chapter 1 quiz. For each mistake, I would like you to correct the mistake that you made, showing all supporting work. Also, write an explanation describing your original error. You may use your notes.

	Poor	Good	Excellent
All errors are accurately revised	Most errors have not been corrected (1 pt)	Most errors are accurately revised, but a few problems are still incorrect (3 pts)	All errors are accurately revised (5 pts)
All steps are shown when necessary	Steps are not shown (0 pts)	Most steps are shown, but some are missing (1 pt)	All steps are shown when necessary (2 pts)
Complete explanation given correctly identifying the error	Errors are not explained and are not correctly identified (1 pt)	Errors are explained but not completely, or some errors are not correctly identified (2 pts)	Complete explanation is given and the error is accurately identified for each problem (3 pts)

Total score: _____ / 10
