Task: Rhyme Time Bingo
You will be working in small groups of 4-5 students. One person will be the “caller” and the other students will be the “players.” The caller will have a pile of picture cards and each player will have a Bingo card and chips. The caller will place their picture cards face down and will pull one card at a time. The caller will say the picture that is on their card and the players will have to find a picture on their bingo card that rhymes with the caller’s card. If they have one, they will check with the caller and will cover their picture with a chip. The game will continue until one of the players has 5 chips in a row, either vertically, horizontally, or diagonally. At this point, the caller will switch roles with a player and the game will continue. The teacher will be walking around and observing each of your groups. Be prepared to answer questions about the words you have rhymed.
