3-D Geometric Solids

Standards:  Identify a solid by its net
            Identify a geometric solid in real world

Task:

For each net

a) name the solid it represents
b) shade base(s)
c) highlight the sides of lateral areal that will go around the base

1)  
2)  
3)  

Name the geometric shape that the objects below represent

4)  
5)  
6)  

7) Name a real life object that could be described as cone ______________
8) Name a real life object that could be described as rectangular prism ______________
9) Name a real life object that could be described as a sphere ______________
