

Personal Reflection on Presentation Evaluation

Chose the criteria that you received the lowest score on, based on others opinions and answer the following questions:

Criteria chosen: _____________________________

1. Did your self evaluation scores agree with the scores others gave you? If they did not write down a reason or two why they might not have agreed

2. List the specific areas of these criteria you feel you need to work on.

3. Reflect upon the problem or concept that you presented to the class and explain what you would need to do next time (at least 2) to improve upon the score you received. *(Be very specific with this explanation)*

4. Explain why it is important for you to be able to perform these skills in an environment outside of the physics classroom
