

## **Authentic Assessments**

### **3<sup>rd</sup> Grade**

This authentic assessment was created for use with the Palatine Community Consolidated School District 15 third grade progress reports. All of the content standards included in this project are directly from the progress report and the tasks are based on those standards. The third grade progress report requires teachers to grade students based on how they are progressing in the areas that these standards address, and this assessment will assist the teachers in being more objective when assigning those grades.
