Homework Reflection - What am I telling myself?

STANDARDS

Process: Use time constructively

Process: Draw conclusions from given data

Process: Reflect on work done

TASK

Reflect on your practice problems using the reflection sheet. First, record the goal of the assignment. Then, check your problems for accuracy. Finally, sincerely reflect on your work by providing complete and specific responses to the remaining questions on the reflection page.

Total __________/9
The goal of the assignment was to practice ______________________________________________
_________________________________________________________________________________________

Grade your practice problems and then complete the rest of this page.

The following are the expectations for your practice problems. Check off each expectation you have met for this assignment.

_____ All assigned problems are attempted according to the directions, or difficulties are explained using STUCK (Stuck on/ Thought about/ Unclear/ Come back/ Know)

_____ Calculations, work, and steps are clearly shown for all applicable problems

_____ All problems are reviewed for correctness. Problems are clearly marked as being right or wrong. Score is recorded on the top of the page.

_____ Paper(s) is neat and professional (no tears, crumples, etc.). Paper has proper heading (name, page, problem numbers) in right hand corner

On a scale of 1-5 rank how you would feel if you were asked to solve these types of problems next week. Then explain your ranking.

I feel this way because ______________________________________________________________
_____________________________________________________________________________________

Something I am proud of that I did for this assignment is ___________________________________
_________________________________________________________________________________________

One specific thing I am still working on is __________________________________________________

One specific thing I can do to get better is to _______________________________________________
