**Fairy Tale Passport**

**Task:** Students will create a fairy tale passport. Students will identify the country origin for each tale and add it to the passport.

**Process:** Have you ever been to another country? With every story we read we will be able to identify the country it came from and locate it on a map. Once we've done that the rest of the job is up to you! In order to create a passport you will need to:

1. Fill in the information on the first page of your passport. Write your name, age, address, date of birth, and the country you were born in.
2. Color a picture of yourself in the space provided.
3. Once all the information is filled in, identify which country the fairy tale came from. Make sure to think of a good guess!!
4. Once the correct location is identified, write down the name of the country on the line.
5. Next, think of your favorite character from the book and color a picture of him/her in the box.
6. Don’t forget to identify the character and name three things that tell about him/her.
7. With each new tale we read from another country a new page will be added to your passport.
8. Keep your passport within your fairy tale folder so you don’t lose it!
