JOURNALS-Task 6

TASK-Students will complete in their journals responses to prompts on readings, lesson presented, labs, and group performance. Students will discuss their journal entries with the class or independently with the teacher. Some examples of prompts are: Describe 2 forces that demonstrate change in motion, write down 5 different forces which you experienced in the previous day or show evidence of inertia relating to Newton’s first law.

Directions: Respond to the prompt given in class and write your answer in your journal. Please be thorough in your thoughts.

The following will be required:
- Minimum of 5 complete sentences relating to the prompt asked.
- A clear indication of your understanding.
- If necessary, add any questions or concerns you may have regarding the prompt.
